- Dual Honours Student 2024
- SRC President 2019/2020
- Founder of NGO
- App development with Swift Certified User (Mobile Development)
- Mentor GirlCode
- Distinction in Research Methods and Proposal (UNISA Module)

EXPERIENCE

SRC PRESIDENT • EDUVOS • 2019/2020

As the first female Black SRC president at Bedfordview Campus, I made diversity a top priority by making sure that all kinds of student perspectives were included in discussions on campus. My work centred on improving policy advocacy for fairness and diversity while fostering communication amongst students, professors, and administration. In the end, my tenure served to emphasise how important diverse leadership is to create a learning environment in which all students can excel.

INTERN • GLUCODE • 2022 - 2023

In my position, I created a suite of apps, such as a weather app, calculator, and to-do list, with the goal of increasing user engagement and streamlining everyday tasks through effective API connection. My proficiency in creating visually appealing and intuitive user interfaces has enhanced my comprehension of user experience, enabling me to provide useful and beautiful solutions. My extensive background encompasses the whole software development lifecycle, with a focus on producing products that are both high-performing and of excellent quality.

MOBILE DEVELOPER • TRINITY IOT • 2023 - PRESENT

I translate ideas into digital solutions as a mobile application architect, with a focus on cross-platform app development using Flutter. Using Dart, I create dynamic user interfaces for desktop, web, and mobile platforms with an emphasis on maintainability and performance. To expedite the development process, I work closely with designers and developers on UI/UX design, debugging, and API integration.

MOBILE DEVELOPER | HONOURS AND PGDIP MANAGEMENT (NQF 8)

EDUCATION

CERIFICATE INFORMATION SYSTEMS (NQF 5) • 2018 • EDUVOS • 68%

After earning three distinctions and gaining proficiency in Visual Studio, Information Systems, Procedural Programming, and C++, I received a Certificate in Information Technology (NQF 5). This success has given me a wide range of skills that are essential to my career growth in the tech sector.

BSC INFORMATION TECHNOLOGY (NQF 7) • 2021 • EDUVOS • 70%

I received a Bachelor of Information Technology degree from Eduvos, with six distinctions and an 88% grade average in my last year. I also learned how to use tools like Netbeans, Visual Studio Code, and Android Studio, as well as programming languages like Java, C++, HTML, PHP, CSS, and JavaScript. I gained extensive programming and database management abilities from this education, which helped me get ready for the tech sector.

BSC(HONOURS) COMPUTING (NQF 8) • TO BE COMPLETED (2024) • UNISA

As a second-year honours computing student, I've performed exceptionally well academically, earning distinctions in two important first-year modules, Proposal and Research Methods, to lay a strong academic basis. I'm in my last year and have three more difficult modules left. This journey shows that I'm committed to excellence and prepared to make major contributions to the field of computing.

PGDIP MANAGEMENT • TO BE COMPLETED (2024) • NWU

In my first year studying a Postgraduate Diploma in Management, a program containing four blocks and ten modules, I have succeeded in

assignments, frequently surpassing expectations without having taken any tests or exams yet. This achievement displays my analytical prowess, dedication to excellence, and adeptness at understanding complicated management principles, underlining my commitment to both academic and professional advancement in management.

VOLUNTEER EXPERIENCE OR LEADERSHIP

FOUNDER AND MANAGING DIRECTOR • 2020 • TUMIJANE FOUNDATION

Our non-profit organisation hosts yearly competitions that honour sportsmanship and unity amongst disparate groups, leveraging the worldwide appeal of football to have a huge effect in our community. Through pad drives, we take our purpose beyond the pitch and give impoverished children access to basic hygiene supplies. One game and one pad at a time, our efforts are devoted to improving the future for the next generation by addressing vital needs and promoting a sense of community through sports.

IT MENTOR • 2024 • GIRLCODE SA

In my role as an IT mentor, I help young ladies get into the field by imparting information and life lessons that make technology approachable and engaging. I am committed to equipping them with the knowledge and skills necessary to become future leaders and innovators in the field of information technology. Seeing how they develop and how mentoring has a positive influence motivates me to continue expanding the IT industry.

My goals are centered around earning a Master's degree, which is a necessary first step in order to significantly impact leadership and cutting-edge technology developments in my industry. With this advanced degree, I will have the knowledge and abilities to take on difficult tasks, advance the status quo, and become a change-inspiring leader. My goal in pursuing a Master's is to use this higher education as a catalyst for innovative developments while also allowing me to expand my skills. My goal in undertaking this journey is to combine academic rigour with real-world experience, laying the groundwork for a day when I will be able to greatly impact and mould the course of technological advancement. I created this website in order to provide a more thorough version of my resume for my master's application please do have a look at it: [HTTPS://MAIN--BOITUMELOTHOBEJANE-ACADEMIC-CV.NETLIFY.APP/](https://main-boitumelothobejane-academic-cv.netlify.app/)
